Phil Robson - Guitar
Ross Stanley - Organ
Gene Calderazzo - Drums

Phil Robson, an incredibly versatile and creative guitar player as well as **composer**, named **Musician of the Year** at 2009 Parliamentary Jazz Awards, has joined forces with the Hammond virtuoso **Ross Stanley** and the inspiring and powerful drummer **Gene Calderazzo** to form this **brand new, all-star band**.

The **concept of an organ trio** has always been close to **Phil Robson's heart**. But he wanted to feel that he had **his own, unique take on this great tradition** before forming one himself and that time has come! The music is fresh, exciting and played with great energy.

The tremendous power and subtlety from Gene Calderazzo ensures that the music swings like mad, Ross Stanley on Hammond went from his flowing and lyrical playing to some raw and percussive grooves, and Phil Robson displayed fine leadership skills to complement his playing and writing.

Roy Stevens, Stratford Jazz

All the musicians in this band have been important figures, not only in the UK, but internationally over recent years. Phil and Gene are well known for their great work together as part of the cult band Partisans but this will be a totally new experience and the wonderful Ross Stanley brings his own spectrum to this **fine cocktail**. You can expect some **great tunes** brought forth by the formidable blend of guitar and Hammond, driven by Gene's stimulating drumming.

*Phil is a wonderful guitarist and composer,
definitely a unique player.*

David Liebman, US sax legend

As a band leader **Robson has fronted** many **innovative projects** including: The Immeasurable Code Quintet featuring US saxophone star Mark Turner, Six Strings & The Beat, Phil Robson Trio with drum legend Billy Hart and James Genus on bass as well as Quartet featuring David Liebman and Jeff Williams. Phil also co leads the cult band Partisans with Julian Siegel which has been a major influence on the European "Nu-Jazz" scene. The **new organ trio** is another of his "**destined for success**" projects.

Phil Robson's music, on a first hearing, always gives me that feeling I haven't yet heard right the way through it to the other side. Yes, there are moments of beauty, external allure, yes there is variety. But there is also a depth which brings one back wanting to revisit, to hear more and more.....unmissable'
